ANSWERS

Quick answers about the app.

If you are setting up VolunTrack for the first time, these are the questions the team hears most often. Open the app, log a session, and the rest of the answers usually follow.

0
1

Is VolunTrack free?

Yes, all features are completely free. There are no paid tiers or hidden costs.

0
2

Can I export my hours for school requirements?

Absolutely. You can export polished PDF reports, CSV files, and printable certificates with all your logged hours, supervisor details, and categories.

0
3

Is my data private?

Yes. Your data is stored entirely in your browser's local storage. No data is sent to any server unless you explicitly submit a contact form. You are always in control.

0
4

Can schools and organizations use VolunTrack?

Yes. There are dedicated tools for schools and organizations to track volunteer hours across their members. Contact the team to learn more about partnership options.

0
5

What if I forget to log a session?

You can log past sessions at any time. Reminders can also be set so you never miss recording your volunteer work.

0
6

Does VolunTrack work offline?

Since data is stored locally in your browser, VolunTrack keeps working even without an internet connection after the initial load.

0
7

What if I switch devices?

Because data is stored locally, switching devices means starting fresh unless you use the optional sync login. Sticking to one device gives the most continuity.
